

Bentley
PONTOONS

At Bentley Pontoons, we believe that the best moments in life are those spent on the water—surrounded by loved ones, immersed in the serenity of nature, and aboard a pontoon that brings both luxury and reliability. Since our inception, we've been dedicated to creating more than just boats. We create gateways to unforgettable experiences.

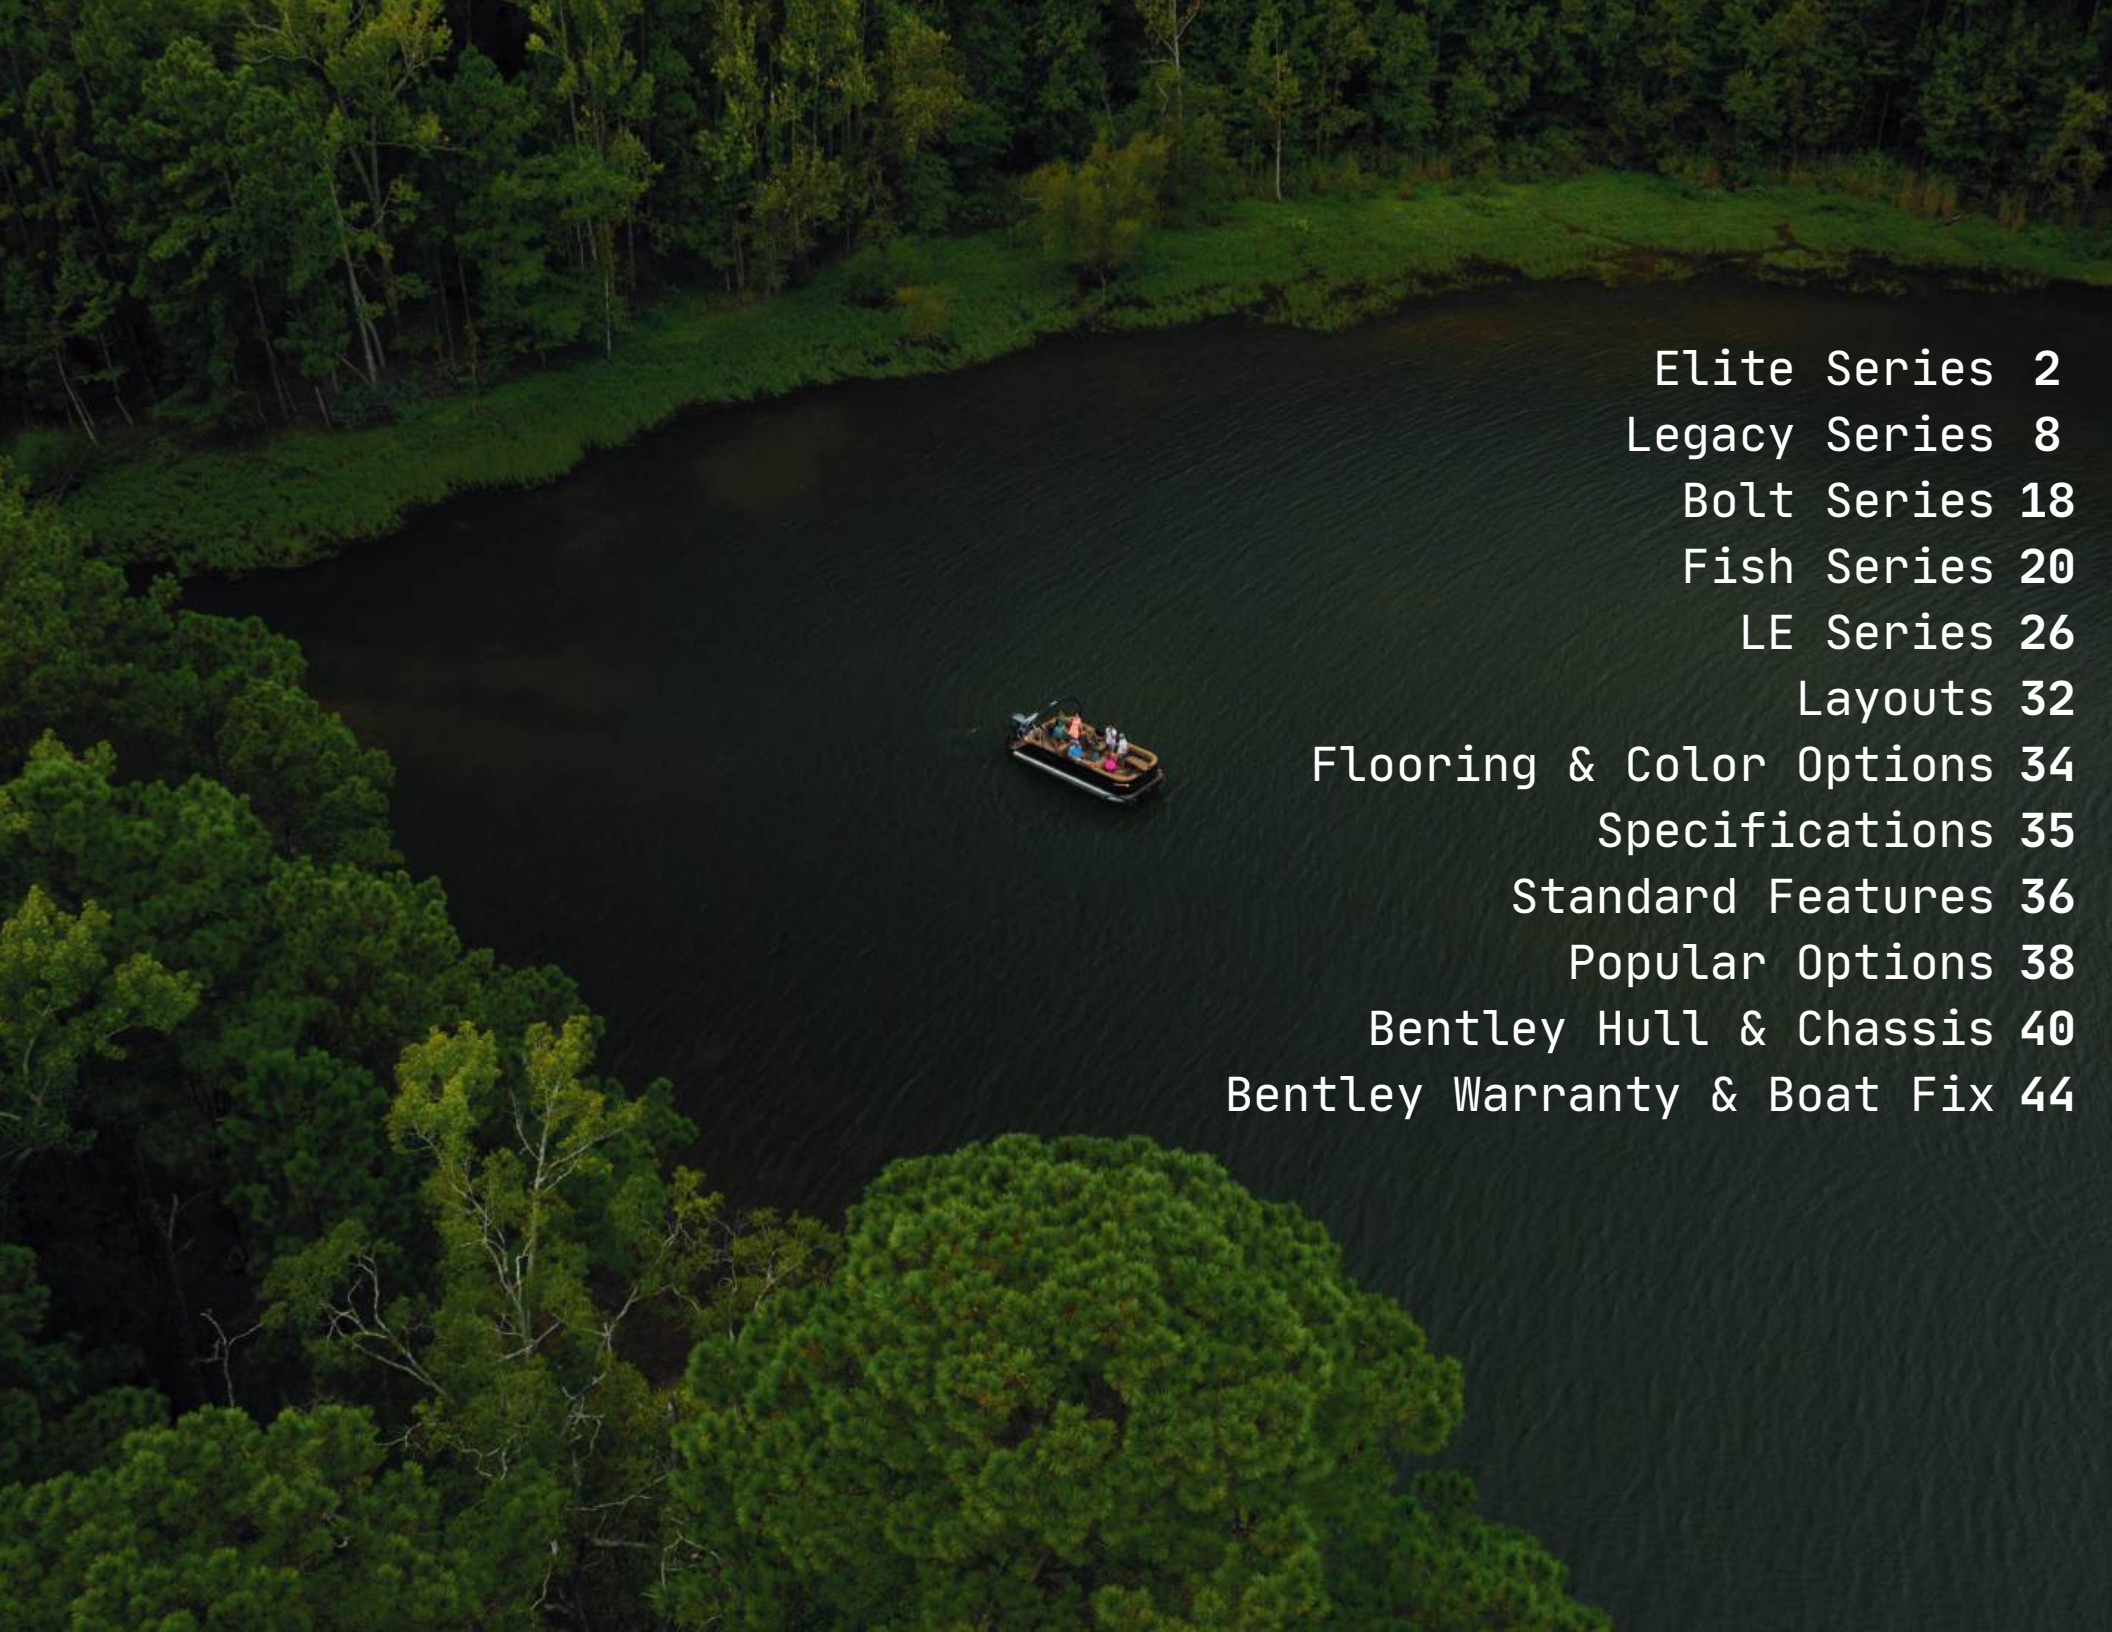

Our story begins with a passion for bringing people together. Whether it's the laughter of a family fishing trip, the quiet reflection of a sunrise cruise, or the thrill of a watersport adventure, we know that a pontoon is more than a boat—it's a platform for connection. Every detail of our boats are designed with you in mind, so that you can focus on what truly matters: making memories.

Each Bentley Pontoon is built with a commitment to quality, durability, and style. From our state-of-the-art manufacturing process to the fine craftsmanship of every seat, rail, and weld, we put our heart into every boat we build. With a wide array of customizable options, including our signature luxurious interiors and advanced technology, you can create a boat that feels uniquely yours.

But owning a Bentley Pontoon is about more than just style and performance. It's about the moments you'll cherish for a lifetime: the first time your child reels in a fish, the annual sunset cruise with friends, or the spontaneous weekends where you set sail and leave your worries behind. These are the moments we live for, and the ones we strive to create for every Bentley Pontoon owner.

As we continue to innovate and evolve, our core mission remains the same: to design and build pontoons that elevate your experience on the water, crafting boats that make every moment on the water special.

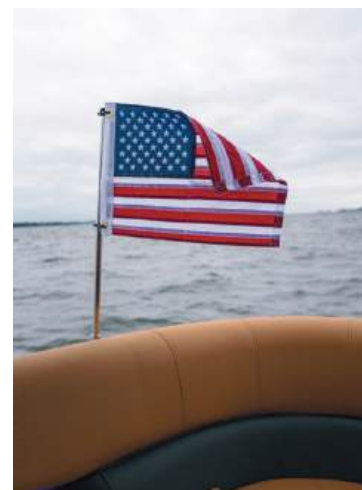

With Bentley Pontoons, the journey is just as extraordinary as the destination. Welcome aboard.

An aerial photograph of a dark-colored pontoon boat with a canopy, floating on a calm lake. The boat is surrounded by dense, lush green forest that covers the shoreline and extends into the water. The water is dark and reflects the surrounding trees.

The Bentley Hull and Chassis

Your foundation for quality, comfort, performance and handling

Bentley designed our .125 or .190 "hat" channel with two support bolts. Butyl tape is applied to seams for added waterproofing.

What Bentley's Competitors use

Inferior shaped and engineered crossmember or cross channel utilizing only one support bolt.

Item	Feature	Feature Details
1	Keel	All our tubes feature a 5/8" full length, solid keel.
2	Tube diameter and thickness	25" diameter tubes are constructed from .080 thick aluminum sheet
3	Lifting strakes or performance lifting strakes	.100 thick aluminum lifting strakes are optional on 2-tube hulls and standard on 3-tube hulls. Our lifting strakes are strategically placed on the tube and hydrodynamically designed to create "lift" which reduces drag, increases speed and improves maneuverability.
4	Tube baffles	Each joint of the tube has a baffle for added strength. The baffle has a drain hole for servcability.
5	Nose cones	All our nose cones have splash fins along with a proprietary keel for added strength and rigidity.
6	Cross member risers	It is important for all chassis to flex, but remain solid and intact. For this reason, the Bentley chassis uses multi-length "M" bracket risers, strategically placed and welded to the tube, for added strength.
7	Cross members	.190 thick aluminum extruded "hat" channel cross members are used in the stern and .125 aluminum extruded elsewhere.
8	Transom and motor pod	Our boats have an all welded, aluminum transom, which utilizes .190 aluminum sheet in the motor pod area for maximum strength. * excluding LE models
9	Fuel tanks	All Bentley fuel tanks are roto-molded for maximum quality and fitment. They are mounted in the motor pod area and are diurnal EPA certified.
10	Wiring and harnesses	Deutsch-style electrical connectors are used to ensure quality.
11	Aluminum underskin	.063 thick aluminum sheet is fastened, using marine grade stainless steel rivets, to the underside of the decking/cross members. This underskin helps to reduce turbulence, noise, spray and increase speed.
12	Decking	3/4"-7-Ply marine grade plywood is used for the decking material.
13	Beam	Every Bentley chassis features a 8'6" beam. This is the maximum width allowed for towing a boat without a special permit.
14	Rub rail	All our boats come standard with a rubber insert engineered into the rub rail.
15	Hardware	100% of all nuts, bolts and fasteners on the chassis are stainless steel.

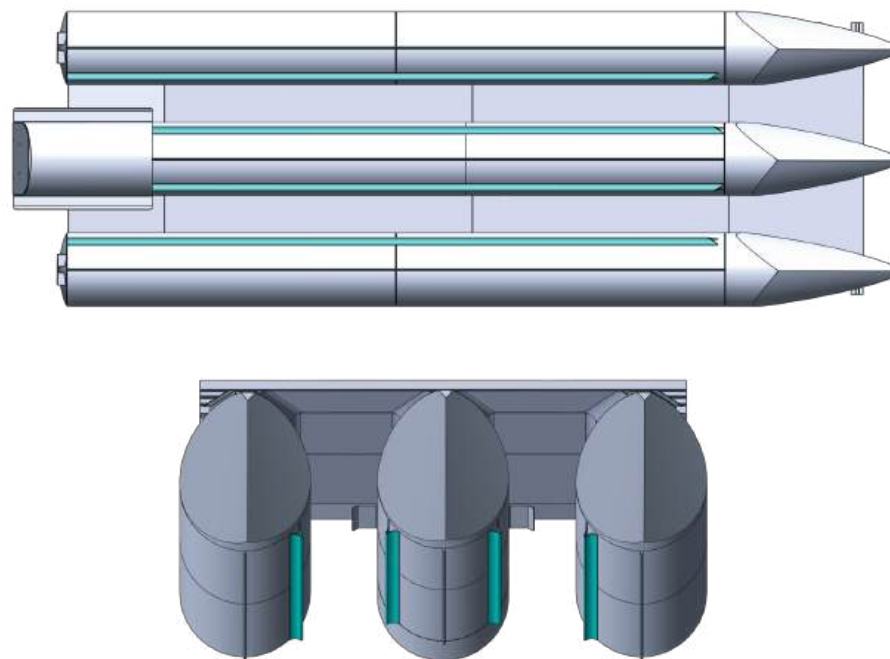

Tailor your boating experience by choosing a hull and options that are engineered to fit your unique style.

At Bentley, we believe that you should be in control of your boating experience. That's why we offer a variety of hull options that can be tailored to meet your unique preferences. You have the flexibility to choose the features that are best suited for your needs and budget. Although there are some limitations, the possibilities are endless – and we know you love having options.

Did you know that over 50% of our customers prefer our three-tube hulls? However, don't let that statistic fool you – our two-tube hulls perform just as well. In fact, they come with a range of options, including underskin, lifting strakes, hydraulic steering and even ladder options.

Our three-tube hulls provide unparalleled flexibility and options for your boating needs. Seeking maximum speed? We have you covered. Need the best maneuverability? You got it. Want a combination of style and performance? We can offer that too. Our selection allows you to personalize your boating experience with options such as "in-floor" storage, performance lifting strakes, power steering, or even telescoping ladders. The Bentley hull comes with a lifetime warranty for endless family fun, regardless of the option you choose to customize your boat.

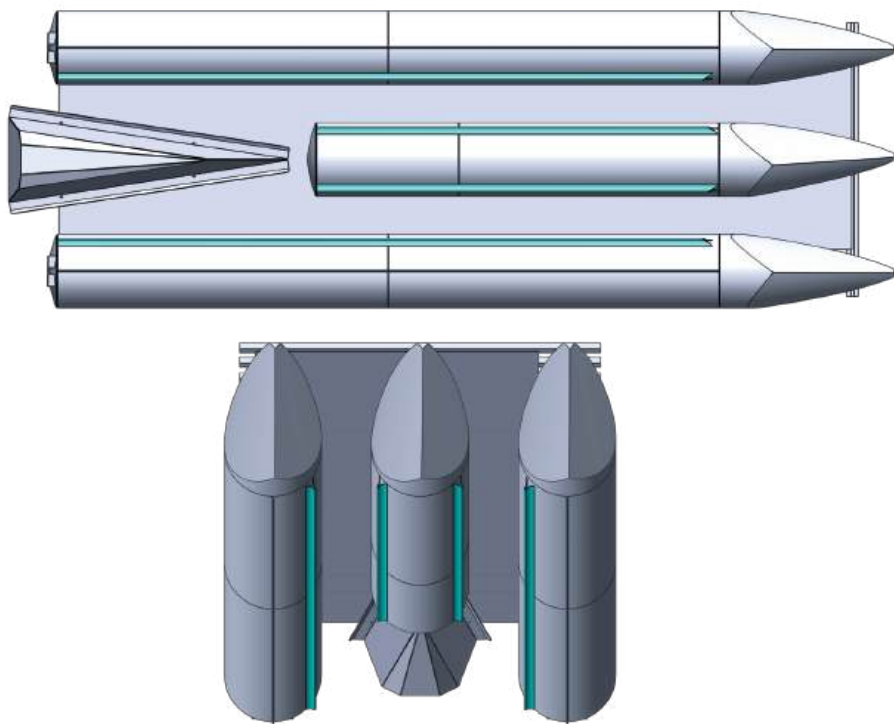

XLP3 Hull

This Xtra Luxurious Performance Triple Toon provides the ultimate ride in boating. Choose this hull for rougher water sports or a comfortable cruise. The XLP3 hull is available on all series of boats except LE.

- (3) 25" diameter round tubes with a 25" shaft transom - STANDARD
- All welded aluminum transom with built-in 54-gallon fuel tank and "U-shaped" motor pod - STANDARD
- Aluminum underskin to increase speed, reduce turbulence, noise, and spray - STANDARD
- Lifting strakes strategically placed on the tube for "lift", speed, and less drag. - STANDARD
- 3/4" - 7-ply marine grade plywood with a lifetime warranty - STANDARD
- SeaStar Hydraulic steering - STANDARD
- Center tube "in-flooring" storage area for skis, water toys, etc. - OPTIONAL

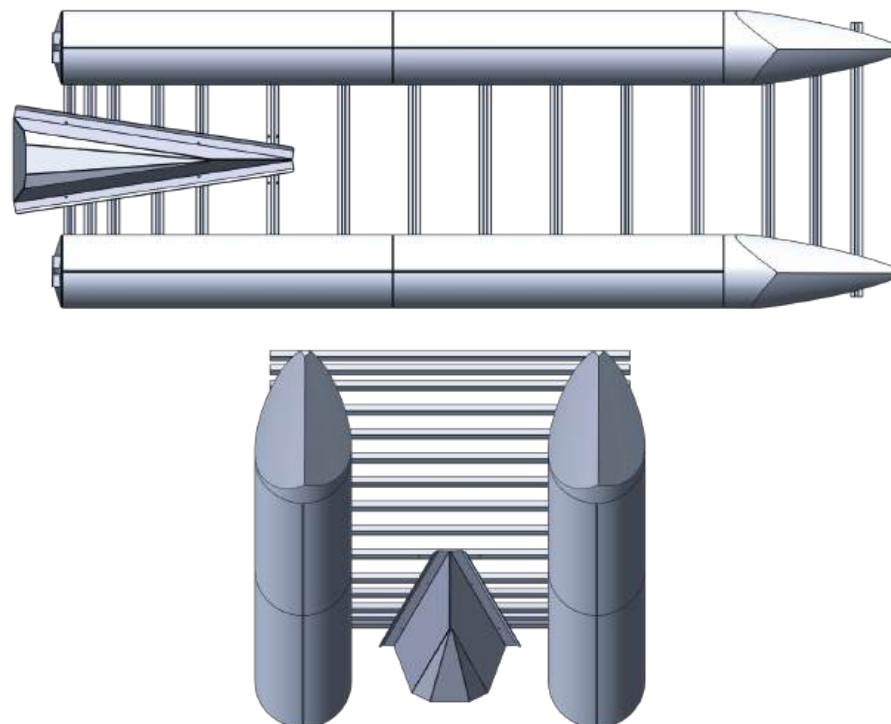

SPORT3 Hull

This agile High Performing Triple Toon provides great top-end speed. Its lighter weight enhances fuel economy and it has an economical price. Choose this hull for water sports, speed, and cruising. The SPORT3 hull is available on all series of boats except LE.

- 3/4" - 7-ply marine grade plywood with a lifetime warranty - STANDARD
- Aluminum underskin to increase speed, reduce turbulence, noise, and spray - OPTIONAL
- Lifting strakes strategically placed on the tube for "lift", speed, and less drag. - OPTIONAL

The Bentley Warranty

The team at Bentley goes to great lengths to search out quality vendors who collaborate and work with us to assist in the creation of our boats. Because of this, we offer strong warranties on our decking, workmanship, and components for all our pontoon boats. For added peace of mind, we've included our warranty details in the QR code that you can scan.

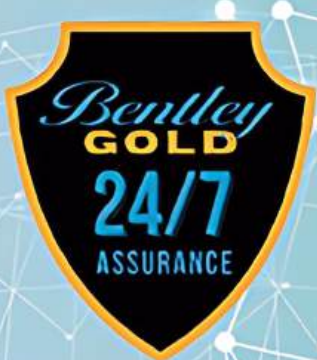

Our warranties include:

- Limited Lifetime Structural Warranty
- Limited Lifetime Workmanship Warranty on Tubes
- 5-Year Limited Furniture Vinyl and Floor Covering Warranty
- 5-Year Limited Bimini and Mooring cover fabric
- 5-Year Limited Component Parts Warranty
- One-Time Warranty Transfer

Bentley Pontoons' comprehensive warranty policy provides peace of mind to current owners while enhancing resale value by offering long-term protection and reliability.
